Revisions are marked with a bar and in **bold text**.

Issue:

A new style oil dipstick has been introduced on all 3.0 L S-TYPE V6 vehicles from September 1999.

The new style oil level dipstick can be identified by its loop handle instead of the old T-bar design.

Note: Due to the service oil fill change on V6 engines from 5.7 liters (6.02 qts.) to **6.5 liters (6.87 qts.)**, the oil fill mark on the dipstick has been altered by **14 mm (.55 in.)**.

Action:

The new style dipstick is shown in Illustration 1.
